## Honor Day Program

The Honor Day program at the Opera House on Friday, given for the students who had passed from Grade to Grade with honors was attended by a large crowd of people, and the splendid program was thoroughly enjoyed by all who attended.

The program as rendered was as follows:

Singing "O Canada."  
 Address of Welcome by Principal J. O. Hicken.  
 Addresses from the School Board by Mrs. F. W. Leavitt and J. U. Alfred.  
 Piano Solo—Sylvia Holmes.  
 Reading "Hello"—Viola Blackmore.  
 Cornish May Dance, Grade 1.—Directed by Miss Page.  
 Reading—Thurston Smith.  
 Chorus "Sweet and Low" Grade V.—Miss Hicken.  
 Piano Duett—Jolene Price and Verle Meldrum.  
 Action Song, Grade II.—Directed by Miss Johnson.  
 Reading—Louise Heninger.  
 Shoemakers Dance, Grade I.—Miss Riches.  
 Reading "Anthony's Speech"—Karl Alfred.  
 Vocal Solo—Louisa Allen, Grade II.  
 Patriotic Chorus and March, Grade IV.—Directed by Misses Fount and Webster.  
 Reading—Franklin Smith.  
 Piano Solo—Ruth Watson.  
 Presentation of Honor Certificates.  
 God Save the King.

Each number on the program was well given and the teachers and the pupils are to be commended for their excellent work from year to year in this program.

This year there were 107 Honor Students as compared with 118 last year, and the average enrolment in 1932 was 510 as compared 515 in 1931. The percentage of attendance in 1932 was 94.7 compared 94.5 last year. In 1932 there were 362 late and 465 in 1931.

During 1932 3,250 Library Books were read by the pupils, compared with 2,518 in 1931, and there were 1,651 exhibits in the School Fair for 1931 as against 1,022 for the 1930-31 term.

During the entire year there were only 7 pupils punished by the strap.

Like wilting flowers, everyone's legs seemed to have lost their spring as they walked up and down the streets on Monday in the heat of the day.

**HIGH RIVER IS BAKED BY HAIL.**  
**RAIN AND HAIL PILE UP PRECIPITATION OF 3.41—**  
**CARDENS FLATTENED**

High River, June 14.—Not content with a record flood two weeks ago, High River on June 14 experienced a rainfall which seems also to have established an all-time record. Commencing at 2 p.m. and lasting till three-fifteen, the recorded rainfall at the government station was 3.41 inches. This is the most lavish outpouring ever recorded at the station in the space of one and one-quarter hours.

The downfall was largely in the form of hail although rain also fell. The hail storm appears to have centred almost entirely on the town, battering now from the north and now from the south for sixty minutes or more. It is rarely that a hail storm endures so persistently. The hail came in waves, ranging in size from berries to pigeon eggs, with occasional stones of alarming size.

In fury, however, it did not equal some of the biggest and best experienced of the town, and there is no report of window demolition or any great damage done except to gardens. These have been badly flattened, but will come back shortly, it is expected. The gardens, however, which bore the brunt of the flood, are in a bad state with the double blow.

To the east of town the hail fell in considerable quantity, but no permanent damage is anticipated to fields. There was no hail north, south or west in the district. Lethbridge Herald.

## Crop Report

(Report No. 2 issued by Banit of Montreal)

**GENERAL**—Good rains have been received in all three prairie provinces, including last year's dry areas, and grains are making rapid growth. Seeding has been completed with the exception of that for fodder crops and a small amount of coarse grains in Alberta and Saskatchewan. In few districts there has been some slight damage from soil drifting; damage from pests is small. Conditions in general are satisfactory. Elsewhere in the Dominion prospects are encouraging though the season is late in some regions. In Quebec crops are not as forward as usual but seeding is now practically completed and, while rain has benefited pastures, warm weather is needed to stimulate the growth of all crops. In Ontario all crops are making marked progress there being ample moisture and favorable growing conditions. Some slight damage to the spring crops on low lands is reported due to heavy rains which have also delayed the setting out of tobacco and tomato plants and the planting of corn. In the Maritime provinces cold, wet weather has somewhat retarded seeding which is about two weeks behind last year. In British Columbia weather conditions continue favourable with ample moisture. Grain and hay crops are showing satisfactory growth. Details follow:

### PRAIRIE PROVINCES

**Alberta, Northeastern Area.** Early sown wheat averages four inches with damage from pests negligible. Southeastern Area. Moisture is ample with no damage to date. Western Area. Germination is even but crops are seventeen days late. Early sown wheat is two to five inches in height and standing well. There has been slight damage from the outworm in isolated sections but with excessive moisture danger is believed past. Sugar beet crops are making headway with an exceptionally good start. Saskatchewan, Northern Area. Growth has been retarded by frosts in some districts. Wheat average four inches in height with germination even. Moisture conditions are fair to good. Southern Area. Soil drifting has been serious in certain localities but recent rains will effect some recovery. There has been some damage from outworms but it is not extensive. The average height of wheat is five inches. Manitoba. All grain shows a healthy growth and is standing well with the average height for wheat six to eight inches. There has been slight damage from soil drifting in a few districts.

### PROVINCE OF QUEBEC

Hay promises to be an average crop. Pastures are in fair condition but a little winter kill is apparent in some districts. Fruits have blossomed well and prospects are good.

### PROVINCE OF ONTARIO

Fall wheat is well advanced and very promising. Cereals and barley are up to average, hay is promising and grass pasture is good. Small fruits promise an above average crop and apples, while lighter than last year, are satisfactory. Acreage in pears, corn and tomatoes for canning purposes will be substantially reduced. Tobacco acreage while not yet definitely established will probably show no material change from last year's high figures.

### MARITIME PROVINCES

Prospects are good for a hay crop of average proportions. Orchards generally are in good shape with apple blossoms reported heavy. Potato acreage has been considerably cut. There is an increase in the acreage of other roots, hay and grains. Pastures are in fair condition.

### PROVINCE OF BRITISH COLUMBIA

Ion and indications point to a heavy apple crop, while the yield of cherries, plums and apricots is expected to be approximately 90 per cent of average. Strawberries, picking past stage is plentiful.

## Successful Temple Excursion

The Temple Excursion of the Raymond Second Ward on Wednesday was very successful considering the busy time of year, something over 60 Second Ward people being present and these were augmented by a good representation from Stirling Ward and some from Raymond First, so that the Taylor Stake company made up between 70 and 80. The morning meeting began at 8:30, and the afternoon meeting at 4:10, so that even taking in the two sessions people were home again by about 10:15. The weather was comfortable all day, and while the road was slippery in spots at night, thanks to the gravel, everyone made good time getting home. The Genealogical Committee are to be congratulated for their untiring labors in getting the Excursion away, and we are sure they appreciate the support of the members of the ward.

## Local Crop Conditions

The weather over the past week-end was warm and sunny, and just what is needed for crops, gardens, and beet fields following the heavy rains of the past two or three weeks. Grain is a splendid healthy color, and looks like a fifty or sixty bushel crop barring hail and other destructive forces, and hay is coming on very rapidly, the first cutting of alfalfa being ready now and some fields being cut.

Beets are looking good, and thinning is going ahead rapidly. Supt. F. R. Taylor says that cutworms have just about completed their destruction, and that in the neighborhood of 75 acres have been lost altogether from this pest. The main thing now is to cultivate, he says. The soil and the beets needs the air and the warmth, and the best way to get it is through cultivation. Due to the moisture that has fallen, the weeds are growing thicker and faster than in previous years, and continued cultivation will be the need if good healthy and high yielding stands are gathered this fall. The wet weather has helped greatly in keeping the weeworm in check, and while there may be some damage from this pest it will not be anything like it would have been if the spring had been dry.

Gardens are coming on fine. Cutworms are taking their usual toll of cabbage, etc. and gardeners will be glad when their attacks are over. Peas, etc., are looking fine, and lettuce are a regular part of the daily menu in most homes. All we need is sunny weather and the odd shower to keep things coming in all shapes.

The local nine trimmed Stirling Friday night last to the tune of 14-0 and on Saturday Raymond team played at New Dayton with a 1-1 score at the end of the sixth, when the game was called on account of darkness.

### MOSQUITO BITE CURE

The most satisfactory medicinal substances for mosquito bites we are informed are household ammonia and tincture of iodine, while many find glycerine or alcohol effective. Some medical authorities advocate the use of ordinary toilet soap, which is washed and rubbed gently over the punctures after which the irritation soon passes away.

There are no doubt all of these, but the best way is to not let the mosquito bite, and then you don't need a cure. One connected with indications of an 85 percent average crop. Tomatoes have suffered slight frost damage but replanting has been accomplished and a fair yield is expected on reduced acreage. Heavy crops of potatoes and onions are indicated. Past stage is plentiful.

## News Notes

"THE FLOOD" at the CAPITOL SATURDAY. A wonder Show.

Mr. and Mrs. Roy Anderson and family of Barnwell spent Sunday here with relatives and friends.

Gordon Brewerton was a Raymond visitor on Monday of this week.

**FREE** — 52 Piece Set of English China at the Capitol Saturday night.

Stone's Hardware put up an awning on Monday of this week over one of their big windows.

W. E. Bullock of Taber, spent the week-end in Raymond, returning to his home on Monday.

Cluter Nilsson and family, son of Mr. and Mrs. C. Nilsson is here for the summer months, following a year's teaching at Hyrum, Utah.

Monday was a real summer day, and we noticed one young fellow almost shedding his shirt on the way to school.

Mr. and Mrs. Hol Stone, Mr. and Mrs. Cooper and Miss Lois Nelson spent Sunday at Henderson Lake Park in Lethbridge, and visiting with relatives in Stirling.

Workmen were busy on Monday repairing the fountain by the Broad way Store. This will be very welcome during the heat of the summer.

C. O. Asplund, Ira McBride and E. A. Price of the Taylor Stake Sunday School Board were in Wintham on Sunday to the Sunday School there.

O. H. Snow and J. W. Evans of the Stake Presidency were in Wintham and Tyrrell's Lake on Sunday last doing some organizing in that part of the Stake.

On June 6th, the Mammoth Primary had a Barnyard Circus which was the cause of a great deal of merriment amongst the children. Stake officers present were: Mrs. Redd, Mrs. Ada O'Brien, Mrs. Eva Terry and Mrs. Reg. Cooper and Mrs. Paul Redd who drove the party out.

Sunday was one of the warmest days of the summer, and it was greatly enjoyed by everyone. Gardens fairly jumped with the heat and grain fields are growing fine.

Elders John O'Brien and E. Weed were the speakers at the Raymond First Ward Sacrament Meeting. Mrs. Davidson of Winnipeg, who was present, rendered two vocal numbers. A good crowd was present and the meeting thoroughly enjoyed.

The Second Ward Party Friday night promises everything in the way of entertainment. A couple of short plays and a musical number or two will precede the usual dance of the evening. Everyone is welcome and admission is 50c. per family.

What is news and what determines the space and display it is given in newspapers. It is the public appetite of course. The news editor is a man whose trading makes him an adept in discovering just what the public appetite craves for most. The word piece of news that has stood for a long time, and from his standpoint the best, was the Lindbergh case. It had all the elements that go to make what they call a human interest story: It concerned the Sin-Japanese war off the front pages. But things other than tragedy tempt the appetite, too. The London Times told of an editor who wrote a story about a prominent banker. It was well written and informative, and he thought it would attract attention. But it didn't. A few days later he published a paragraph saying that in that article, he had overlooked one characteristic of the banker, viz. that he could wiggle his ears. That arrested attention. It went the rounds. Other newspapers commented upon it. Correspondents wrote in to tell of others who had the same accomplishments.

Mr. and Mrs. Maurice Cooper spent the week-end with relatives and friends in Raymond.

**FREE** — 52 Piece Set of English China at the Capitol Saturday night.

Miss Lois Nelson of Stirling has been here for a few days visiting with her sister Mrs. Red Stone.

The prohibition question is proving to be quite a bone of contention in the fourth place of the United States. It seems to be particularly so in the Republican ranks.

## Local Athletes Do Well In Magrath

## Did You Ever Stop to Think

(By Edson R. Waite)

Women are the best judges of food. They know that only the finest of food products are advertised.

Economy has been preached morning noon and night until everybody is practicing it. The result is that there is very little cheerful talk. If a little of the time used in this Economy talk were used in getting some of the people to spend instead of economize, it would help the country quite a bit on its way to normal times.

You should plan your faith in your city, just as your city plans its faith in you.

A man who doesn't know where he is going seldom gets anywhere.

When a city makes the mistake of going into the electric power or gas business, it is engaging in a business that should be a privately owned business. Usually the result is, when publicly owned, it is left in the hands of the politicians who generally see that it is nobody's business but theirs.

The longer goods remain on the shelves the higher does their cost become and the harder it is to move them. Newspaper advertising keeps stocks moving.

More money or wealth is of no use to an individual, no matter how powerful he may be in his wealth, unless he has social and business contact with his fellowmen.

A whole lot of cities stand still or go back at the expense of the public, just to please a few narrow-minded citizens.

Worrying seems to a necessity to some people, and an element upon which they thrive. When they are deprived of a cause to worry, they promptly invent new causes.

A reader writes me a very pleasant letter. Among the things said are that I display an ignorance that is appalling, that I often wander off at a tangent at events about which I know less than nothing. These encouraging words, it is needle to say are entirely unsolicited by me.

Newspaper advertising stimulates sales.

"THE FLOOD" at the CAPITOL SATURDAY. A wonder Show.

**FREE** — 52 Piece Set of English China at the Capitol Saturday night.

Miss Lois Nelson of Stirling has been here for a few days visiting with her sister Mrs. Red Stone.

The prohibition question is proving to be quite a bone of contention in the fourth place of the United States. It seems to be particularly so in the Republican ranks.

A thing need not be important to have value. If the light of an idea may attract more general interest than important events, it is an important conference of statesmen and diplomats on disarmament agreed on a resolution of world-wide importance and it is in the discussion some of the delegates got into a free fight, that the fight would take the headlines and it would be dismissed at the end of a paragraph. Why? Because the public He dearly loves a scrap.

Harris Walker, Bruce Galbraith, and Gray Kirkham, are the local athletes who will go to Calgary next Saturday to participate in the Olympic trials. Harris set a new Provincial Pole Vault record of 11 ft. 3 3/4 inches. The weather was ideal for athletics and the boys extended themselves to make records that will merit real competition in the other sections of the Province.

The local participants and their placings were as follows:—  
 100 Metres—Harris Walker, 2nd.  
 400 Metres—Harris Walker, 1st; 51 seconds.  
 800 Metres—Gray Kirkham, 1st; 2 min. 18 sec.  
 Running Hop, Step and Jump—B. Galbraith, 3rd; 39 ft. 9.  
 Running Broad Jump—Harris Walker, second; 20 ft. 7.  
 Running High Jump—Bruce Galbraith, first; 5 ft. 8 3/4.  
 Shot Putt—Harris Walker, 1st; 30 ft. 6.  
 Wayne Knight, 3rd; 29 ft. 1 1/2.  
 Discus Throw—Harris Walker, 1st; 103 ft. 3.  
 Javelin Throw—Wayne Knight, 2nd; 128 ft. 7.  
 Harris Walker, 3rd; 125 ft. 10 inches.  
 Hammer Throw—Wayne Knight, 1st; 63 ft. 3 1/2.  
 Harris Walker, 2nd; 51 ft. 5.  
 Pole Vault—Way Walker, first in the Juniors; 8 ft. 7 1/2.  
 Harris Walker, first in Seniors; 11 ft. 3 3/4.  
 B. Galbraith, 2nd; 11 ft.

## News Notes

"THE FLOOD" at the CAPITOL SATURDAY. A wonder Show.

Department Examination at the High School started this morning.

W. E. Cliver, accountant and auditor of the Alberta Oil Pool, was here last week-end and until Monday night with J. F. Elder, local Oil Pool agent.

Several local King's Scouts will take part in the Peace Park Gathering at Gower National Park on Saturday. B. J. Evans and B. J. Wood of Carleton will be in charge of the Southern Alberta Scouts.

**FREE** — 52 Piece Set of English China at the Capitol Saturday night.

Elders Wayne Knight, W. Stratford and J. Daynes were the speakers in the Sunday evening meeting in the Second Ward. Elder Daynes related several faith promoting experiences of his mission. Elder Stratford spoke on Evidences of a Maker, and Elder Knight spoke on some of his missionary experiences. Fritz Gedlich sang a solo and Misses Winifred Reegan and Muriel Webster sang a vocal duett, as special musical numbers on the program.

Standing in front of the Law Courts in Vancouver is one of the highest flagpoles in the British Empire. It flies its flag 210 feet in the air. A few days ago it became necessary to supply a new rope, but it was very difficult because of the difficulty of getting the rope through the pulley at the top of the pole. After some time, for some time, a young sailor from the new Canadian National Steamship Prince Robert, which operates on the Alaskan run from Vancouver in the summer, a hint and was awarded the task. He had not made much progress before he began to attract attention and by this time he was half way up the pole. He was forced to his hands around the pole for safety. His release to the ground was just as dangerous as the trip up because of the wind, but the plucky young sailor was given a thundering cheer by the thousands of watching spectators.

### SCHOOL IS NEARLY OVER

School is nearly finished for the term, and the teachers are taking stock of the successes and failures of their pupils, and as parents we should consider the value and far reaching effect of the Teacher's work upon the lives of our children. What have we received in the past year for the expenditure of wealth that has been paid out in maintaining our schools. What has been the effect of the year's work on the character of our boys and girls. How well have we as parents upheld the staff of the school in their work and how well have we co-operated with them in the carrying out of their aims and hopes in the school.

There has been progress in the school, the statistics show that with a decrease of 103 lates over 1931 it shows that the moral of the school is better. The boys and girls are learning the value of punctuality, and there are few things we need to carry out in life more than habits of punctuality. The practice we have of starting meetings and entertainments from 10 minutes to 1 hour late is a very disappointing manner of doing things. We have all formed the habit of being late, and we waste our own time and the time of others because things do not run to schedule. If the training of the youth in punctuality will bring on a generation of men and women who will run things to time, then much good will have been accomplished.

When 515 pupils can be disciplined so that only seven during the year have to be punished with the strap, then we say the teachers are doing a good work in this respect, and as parents we should thank them for it. Discipline and respect for authority are two decidedly essential factors in the life of any individual, and as older people we should be very careful not to take sides with the children when it becomes necessary to chastise them. If the attention necessary in school can be obtained with only seven strapings throughout the year, then we say, the teachers are accomplishing a great deal.

Other figures are also significant, but perhaps we have said enough in this respect. Many of us get the idea that all school is, is a place to learn to read, write and "adder." Well, of course, these things are important. They are necessary, and if the youth did not get them in the school room, they would of necessity have to be obtained in some other manner. There was a time when school consisted mainly of the three Rs, but today there is a broader vision. The character building of the youth is recognized today as one of the great factors in their schooling. Teaching boys and girls to play the game of life. And, after all, is not this the big thing. A person may be ever so clever in certain lines, in fact they may be specialists, but if they are unable to play the game of life, to be good losers, as well as good winners, to take their place in their community as respected and honest citizens; then regardless of their particular accomplishments, they are not failures. To enjoy life and to play it's game well, is a fundamental necessity in life.

So, in thinking about the statistics that were given in connection with the report of the Honor Day program, it seems that there is much to be commended in the year's work. The Honor System seems to be working out very well. It decreases the lates and absences from school. It makes the work of the teachers easier, and the progress of the students more uniform because it saves repetition. It would seem also that it would tend to better attention and discipline in the school, because when we are hearing new things, we do not have a tendency to cause any disturbance, but when we hear the same thing over and over again we lose interest and seek for some thing else to interest us.

When we think about our school system, let us not confine our thought to mathematics, art, science, etc., but let our minds go farther, to the men and women our boy or girl will make in twenty years from now. What will his or her morals be? What will their standing be in the community? How well will they be prepared to fight the battles of life when they are gone from the protecting care of father and mother? These are the questions that are im-

portant. To be sure, we want good marks in school, we want continual progress on the part of the pupils, and we are getting these things. But, after all the character building, the example of the teacher on the pupils' lives, the training in respect, honesty, dependability and regularity are the things that count, and be it said to the credit of our present principals and teachers, in both Public and High Schools, they seem to be succeeding very well in their work in the factory of turning out men and women. Congratulations to our school staff, and may the joy of seeing success and honor come to their pupils be their lot, for after all when dollars and cents, and other financial considerations are forgotten, the satisfaction of work well done and success attending the life's labors of former pupils is the reward which counts. And the imprint of the teacher begins from the very first year in school, and continues, not only through school, but throughout life, we are all imitators, and nearly every mature person is some youngster's ideal. We should all be careful of our example, not only our teachers, but all of us, and not only in public when we can be seen and heard of men, but also in private, because sometime we shall be known for our true worth and not what we may seem to be.

### News Notes

Don't forget the Big Stampede

Twenty-five years ago, two brothers parted in a small Surrey town in England, one to homestead in Canada, the other to join the Anglican Church in India. One became a successful farmer at Wembley, Alta., the other rose from Assistant Chaplain in the Church's largest Diocese in India to its Archbishop. Since their way parted they have never met although 1915 almost saw the reunion, when the Archbishop was home on holidays, and the Canadian brother travelled to England from the front. They missed each other by a week. The brother from India, now Ven. A. B. Roberts, at Jasper Park Lodge last week, established the contact with his brother that wanted to unite them once more.

Amos and Andy of the famous "Fresh Air Tasting Corporation" have "the best fish" in the southwest Miramichi near the mouth of the Rensou and Dungarvon rivers in New Brunswick and have returned to New York, according to local officials of the Canadian National Railways. Andy caught two salmon, the largest weighing eighteen pounds, and Amos caught one; Andy also caught some trout, which they are bringing home to exhibit to Malame Queen. So well did they keep their identity a secret that it was only when they were leaving that the news leaked out. In ordinary life the famous pair are just plain Leslie Collins and Andy Brown and they were guests of Dr. MacDonald at his camp. Dr. MacDonald first met them in New York last winter and he invited them to New Brunswick to enjoy some fishing. The week before their arrival their host wired them that the fishing was good, and they immediately wired back saying they would come. It was their first trip to that Province but they assured the Doctor they would be back again.

**RICHARD CROOKS**, Noted Tenor, ON FIRESTONE RADIO PROGRAM

Richard Crooks has now been obtained for the radio audience by the "Voice of Firestone." He will sing each Monday evening, starting June 6, over the NBC Red Network, including CKGW, Toronto, and CFCF, Montreal, at 7:30 E.S.T., and again at 7:30, Pacific Coast Time. His engagement marks the second triumph of Firestone in Singing a distinguished star of the musical world to appear for the first time on regular weekly broadcasts. The first achievement came when Lawrence Tibbett, the foremost baritone of the day, set a precedent for Metropolitan Opera singers by entering into a contract with Firestone for a prolonged series of performances on the air. Mr. Tibbett is about to leave on a three month trip to Europe, the first time, incidentally, that he has ever visited the C-1 World.

This is the second time within a week that public attention has been focused on Crooks. Just a few days ago, the Metropolitan Opera Company announced that it had been successful in obtaining him for next season. It also became known that the Metropolitan had been negotiating with Mr. Crooks for some years, but until now had been unsuccessful, due to the famous tenor's concert sch-

Richard Crooks started his career as a singer at an early age. At eleven he was referred to as the "boy wonder soloist of All Angels' Episcopal Church in New York. At twelve he shared honors with Schumann-Heink at a musical festival at Ocean Grove, New Jersey, where he sang before 14,000 and was quite calm until Schumann-Heink kissed him. During the war he served with the Aero Squadron and proved himself to be an excellent flier. Crooks is already a favorite with the large Firestone audience. During the winter and spring seasons, he made several appearances on this program as the guest artist when Lawrence Tibbett was scheduled to sing with the Metropolitan Opera Co. On these occasions Crooks won tremendous popularity. Thousands of listeners wrote in words of the highest praise.

In signing him as their regular artist, the Firestone Company has endeavored to bring to millions a voice as rich in tenor quality as the voice of Tibbett. In baritone excellence Crooks is extremely versatile and celebrated for his ability to sing popular and novelty songs with the same charm with which he renders the classic. His repertoire will have a wide appeal and include "a song for everybody."

## Health Service

OF THE  
Canadian Medical Association

Edited by

GRANT FLEMING, M.D., ASSOCIATE SECRETARY

### TUBERCULOSIS CAUSES TUBERCULOSIS

When anyone is told by his doctor that he has tuberculosis, that person and his friends naturally wonder where he got the disease. We should all know where tuberculosis comes from because when we know the source of a disease and its manner of spread, we should be able to control that disease to a considerable extent.

The cause of tuberculosis is a germ known as the tubercle bacillus. Tuberculosis cannot occur unless this germ is present. There are conditions such as overcrowding which favour the spread of the germ from the sick to the well. There are conditions of the body, such as overwork and fatigue, which give the germ a better chance to cause disease.

None of the conditions which favour the germ can in themselves cause the disease, the germ is the one and only cause. This leads us then to consider where the germ comes from and how it is spread.

The tubercle bacillus does not, as far as we know, live in nature outside of the human or animal body. This means that the germs come from human beings or animals suffering from tuberculosis. The transfer must be fairly direct because sunlight and drying destroy the germs fairly quickly once they are outside the body.

The important point to understand is that tuberculosis is spread by those who have the disease, whether they know they have the disease or not. This means that tuberculosis causes tuberculosis.

Children suffer from a form of tuberculosis which they contract from the use of raw milk coming from tuberculous cows. This form of the disease can be and is put an end to just as soon as milk is pasteurized because the process of pasteurization kills the tubercle bacillus.

Most cases of human tuberculosis get the disease from other tuberculous

Nearly fifty per cent more precipitation falls on the prairie provinces of Canada at sunspot minimum than at maximum according to the averages deduced at the Dominion observatory of the department of the Interior, Ottawa. Fortunately for various forms of life, such as farm crops and nesting wildfowl, precipitation is greatest during the hot summer months. A sunspot minimum is rapidly approaching so that 1932 and the years immediately following are expected to have increased rainfall in accord with average fluctuation accompanying the eleven-year sunspot cycle.—Western Producer

Get a Stampede Cap from the Broadway. They are all the rage.

humans Tremendous numbers of germs leave the body in the sputum of those suffering from active tuberculosis. It is the transfer of this sputum, laden with the germs of tuberculosis, which accounts for the spread of the disease.

The transfer may be direct as in kissing or by coughs, sneezes or loud talking. It may be indirect as in the use of common eating and drinking utensils. In one way or another the sputum of the case reaches the mouth of a healthy person. The more frequent and the more intimate the exposure, the greater the chance of spread and so the spread commonly occurs in the family.

The case who has learned to take the necessary care to prevent the spread of his sputum is not a danger to others. It is the ignorant or careless case that is responsible for the spread of most of the disease. Tuberculosis causes tuberculosis—every new case comes from a previous one. Questions concerning Health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered personally by letter.

## Public Sale of Land Under the Tax Recovery Act

### Town of Raymond

NOTICE is hereby given, that, under the provisions of the Tax Recovery Act, 1929, THE TOWN OF RAYMOND will offer for sale, by public Auction, at the Office of the Secretary-Treasurer, of the Town of Raymond, on Monday, July 25th, at the hour of 2 o'clock in the Afternoon, the following described lands:

#### DECLARES BANKS RULING DOMINION

Winnipeg, June 13. —Manitoba's election campaign enters its final week Tuesday and political observers are still chary about predicting the result. On Thursday the voters go to the polls to decide whether Premier John Bracken and his coalition. Liberal-Progressive party is to retain control of the government of the province.

A new dash of federal politics was injected into the campaign Saturday when J. S. Woodsworth, member of the House of Commons for Winnipeg North Centre, spoke at Minnedosa.

He declared the banks and financial institutions were the real rulers of Canada and the old line parties were powerless to remedy conditions.

Mr. Woodsworth spoke in support of C. L. St. John, Independent candidate Mr. St. John advocated abolition of party solidarity in legislative bodies.

At Moran Premier Bracken defended the financial record of his government.

Assailing the government financial administration in a speech at Morris Col. F. B. Taylor, Conservative leader said the province was being ruined by excessive borrowing and burdensome taxation. The only relief could come through a business-like government such as the Conservative party would provide.

The local nine played baseball in Warner where they won the game 7-0. Turner for Raymond & Eagleson for Warner were the opposing mound men. Rain commenced falling just as the game was finished, and those who came home over the dirt grade had a real slippery ride.

#### LATIN CLASS MAKES GOOD MARKS

The eight pupils who wrote on the Latin Examination yesterday, and their marks are as follows:—

Willis Taylor, 95; Mirza Pack, 89; Mae Hicken, 89; Elaine Pack, 88½; Cleo Zemp, 82; Roland Weed, 81; Elma Litchfield, 77; Gray Kirkham, 60.

Latin was only introduced into the local curriculum last year, and through steady and thorough preparation and co-operation between the students and Mr. Blackmore who teaches Latin, these outstanding results were obtained.

The Public School teachers treated their pupils to a free picture show on Thursday afternoon. The attraction was "Huckleberry Finn" and needless to say the boys and girls all enjoyed it.

The time for the payment of the Wheat Bonus has been extended to June 30th.

Mrs. Geo. Stoddard of Los Angeles was the guest on Wednesday of her brother Frank Leavitt.

Any store advertisement will pay if it makes a visit to the store immediately worth while to the readers of this paper.

#### WEALTH IN U.S.A. IF IT WERE DIVIDED

Every family in the United States would own \$10,961 in property and have an income of \$2,366 if the national wealth and income were divided equally, according to the National Industrial Conference board. The figures are based on 1930 returns and allow for a drop of 3.1 billions in wealth and 14 billions in income under 1929.

#### Here and There

Captain L. D. Douglas, R.N.R., recently named commander of the Pacific speed Queen, the Empress of Japan, largest of Canadian Pacific liners on the Pacific, recently brought his 26,000-ton charge alongside Pier B, Vancouver within 44 minutes of the Pacific record.

His Excellency Rana Phagat Chandra Bahadur, Rajah of Jubbal, was a traveler on the Empress of Japan from the Far East, recently. He might have been taken for any business man but for the presence of his wife, daughter of the Maharajah of Kathlaad, India, who was attired in Indian garb.

Crop conditions in western Canada are most encouraging and, given normal weather conditions, the quantity and quality of the harvest will go a long way towards restoring confidence and prosperity. Grant Hall, vice-president of the Canadian Pacific Railway, stated recently on his return from a tour of inspection of the company's property.

Final figures of butter production in Alberta for 1931 amount to 22,957,922 pounds, which is more than 600,000 pounds above the previous highest year's record for the province. Closely associated with butter production is a movement inaugurated by the Federal and Provincial Departments of Agriculture to encourage farmers to enlarge their forage crop areas.

Major "Bill" McGeehan, one of America's best known columnists, and Lionel Hitchman, veteran defence man of Boston Bruins, landed a 19 and a 30 pounder salmon from New Brunswick waters respectively in May. The Major got his fish with a four-ounce trout rod on the Cain's River; Hitchman was fishing at Hart's Pool near Fredericton on the Saint John River.

John Cudahy, of Milwaukee, hunting across the Great Divide near Banff, and faced by a furiously charging wounded grizzly almost within striking distance and with but one cartridge left in his rifle, coolly stood his ground and dropped the monster at his feet. Mr. Cudahy has hunted in India, Africa and Alaska, but said he had never had the thrills he experienced on this recent grizzly hunt.

Success of the bargain trips over week-ends and holidays which the Canadian Pacific has put into effect this year was further attested by the great popularity enjoyed during the recent Victoria Day holiday and in week-ends following. To take one large centre—Montreal, the city was literally invaded by the great influx of visitors from eastern Canada and the United States and other big Canadian cities report similar conditions.

Brother officers of the Canadian Pacific Railway, representatives of transportation systems in Canada and the United States, members of the Masonic Order and of Rotary and surrounding friends from virtually all walks of life united in an impressive tribute to the late George A. Walton, general passenger agent of the railway at his funeral in Montreal recently. The remains were taken to Winnipeg where burial took place in the Elmwood Cemetery with His Honor James D. McGregor, Lieutenant-Governor of Manitoba, Mayor Ralph H. Webb, of Winnipeg, and many officers of the company in attendance. His Grace Archbishop Matheson, assisted by the Rev. H. S. Reed, of St. Luke's Anglican Church, conducted the funeral service. (217)

### News Notes

**FREE** — 52 Piece Set of English China at the Capitol Saturday night

L. D. and Shirley King were in the district east of Raymond on Tuesday on garage business.

Don't forget that Raymond is Stampeding on July 1st. Invite your friends to spend the day with you.

The ridge country had a real cloud burst on Wednesday afternoon, and roads became almost impassable for a few hours.

"THE FLOOD" at the CAPITOL SATURDAY. A wonder Show.

Mrs. A. W. Kirkham entertained the Athenian Club at luncheon Wednesday June 15, Mrs. Joseph C. Peterson of Spokane was the honored guest of the club.

Wayne Knight returned from his work in the University of Utah on Friday last. He has as his guests for the summer two of his college chums Messrs. Daynes and Stratford. They motored up from the South, and express themselves as delighted with the scenery of Canada.

The Peace Park celebration at Glacier Park Station tomorrow is the centre of a great deal of attention, and many people from Southern Alberta towns will be attending these ceremonies.

The Calgary School Board has decided to abolish Cadet Training in its Public and High School, and to substitute instead, physical training for the students.

T. Geo. Wood is a business visitor in Calgary this week-end.

Auto licenses in Alberta were reduced \$5 as from June 15. Economic conditions and the many cars not being used caused the Government to make this decision.

During the electric storm early Thursday morning the lightning gurned out several radio aerials and blew out a number of switches. Also opening the automobile cutout on the power line, and left the town in darkness for awhile.

Following the arrest of Brinkert in the Lindbergh case, and the suicide of Violet Sharpe, the maid at the Morrow home, the case developed international angles, as Miss Sharpe is an English citizen. Nothing more has been discovered from this angle, but another character was arrested on another murder charge, and was held for questioning in the Lindbergh case.

140 High School Students are writing Departmental Examination which started this morning. All the students are full of enthusiasm and courage and the paper this morning gave indication that all of them would be very fair. Nine students wrote on Latin on Thursday and all passed.

Walter Webster and "Brownie" Rolfsen met in a head on collision during the Ball game at New Dayton Saturday evening, and both knocked down. Walter was out for quite a while, and both have blackened eyes and swollen faces from the bump. They both went after the same fly ball and neither got it after the accident. Both are getting along O.K. and while the bruises are painful, it is not thought that any bones were broken.

Little Gilbert Attwood, 2 year old son of Mr. and Mrs. Nephi Attwood, furnished cause for excitement and anxiety on Monday, when he wandered several miles away from home and was lost in the ridge country nearly all day. Neighbors joined in the search, which included clipping the 10 foot well dry, and he was found in the evening by Oscar Johnson, and when picked up he sobbed "I'm looking for my daddy." He was tired but none the worse for his experience. The mother was overjoyed when her child was found.

A heavy electric storm passed over the town Wednesday night, or rather Thursday morning at 2 a.m. The rain fell in sheets for a few minutes and thunder roared and lightning flashed, so that many a weak heart found refuge under the bed clothes. .62 inches of rain fell during the early morning and the sun was trying to shine before noon. There was expectation Thursday as to the exact amount of the day of thunder, every one claiming it was directly over the house.
